## Why This Book Matters

Employee motivation is the big challenge facing organizations today — including business organizations. The fundamental question is: “*How* exactly do we motivate our employees, or team members, to do their job the way it needs to be done and enjoy it, too?”

Everything a business does that amounts to *a lasting forward step* depends on deriving the correct answer to this question. This book discloses that answer. In doing so it provides the top three, top five, and top ten motivators for motivating employees (or team members) to greater job performance and job satisfaction.

In short, employee motivation is the vital ingredient to achieving performance progress and realizing enterprise goals. That’s why this book matters.
